Sharpen your survival skills in our Minecraft world!

New ComputerXplorers club open for registrations now!

In this new ComputerXplorers club we will be introducing the children to the world of Minecraft.

This course is designed to engage and enthuse children in the use of technology as a learning tool; specifically, the use of games-based learning. The development of both curriculum learning and soft-skills development is threaded throughout each session.

In the club the children will devise and engage diverse problem solving strategies as they work individually and collaboratively to accomplish session and course wide objectives.

In the final two weeks of the club the children will be cast away on our specially created desert island where they can put their newly learned Minecraft skills to the test.

Sign up now!! Places are limited!!

✔ Open to children in years 2-4 only
✔ Runs every Wednesday for 6 weeks from 3.20pm to 4.20pm
✔ First session is on Wednesday 11 Sept
  Last session is on Wednesday 16 Oct
✔ Cost for the course is £42
✔ Email the requested information below to andrewg@computerxplorers.co.uk

To register your child please EMAIL andrewg@computerxplorers.co.uk

with the following information:-

- Your name
- Your child’s name, school & year
- Your contact telephone number
- Your email address
