Meet Edison in our new club at Newlands Spring!!
New ComputerXplorers club open for registrations now!

Meet Edison! Students will learn to work with this fun programmable Bot while getting a fascinating insight into robotics. Students will begin by using barcodes to program Edison, then quickly move on to graphical and even Python programming. Students will program Edison to make music, communicate with each other, create an anti-theft device and, of course, have a robot war!

To find out more about Edison, have a look at this YouTube video by clicking the link below:-

https://www.youtube.com/watch?v=HVMI7qZOklE

✓ Open to children in YEARS 4-6
