Dear Foundation Stage Parents

As you are aware there has been a large number of children affected by a sickness and diarrhoea bug this week. We are doing everything we can to prevent it from spreading to other year groups and within Foundation Stage itself. As a result we will not be sending home reading books with Foundation Stage children until we are confident that the bug has been eradicated from the classroom and no further contamination can take place.

Many thanks for your understanding and cooperation.

Mrs Edom Baker
