Recipients: Whole School Parents/carers

Dear Parents

We have been notified by a local secondary school that one of their students was approached recently by four men in a black Ford Ka, who were insistent that they get in the car. This incident took place near the Gym end of Melbourne Park.

We would ask that students are particularly vigilant on their way to and from school and while out in the community (particularly those children walking to and from school independently) and that any such incidents and concerns are reported to Essex Police (tel. 101). The school would also like to be advised of any such concern in order that we can share the information with the other schools in the Chelmsford area.

Many thanks

Mrs Edom-Baker
