Dear parents/carers

Across the whole school we are having a huge push on our number facts and times tables' knowledge. Most children need lots of practice to have a speedy recall of these facts.

We are continuing with our Times Tables Challenge booklet. Within this booklet the children are able to achieve their bronze, silver, gold and platinum awards for their times tables.

The expectation by the end of the year is that the children will be able to recite and show a deep understanding of their given times tables and will be able to apply this knowledge when solving problems.

The expected times tables they should know by the end of the year are:

Year 2 – 1s, 2s, 5s and 10 times tables
Year 3 – 3s, 4s and 8 times tables
Year 4 – 6s, 7s, 9s, 11s and 12 times tables

By the end of year 4 all children should have a good understanding of the times tables from 1 to 12. The class teacher will set the children a challenge for given times tables, which will then be tested weekly. If they are successful, they will achieve an award.

Please support your child to practise their times tables at home on a daily basis so they can gain their awards. We would like to thank you for your continued support at home.

Many Thanks

Mrs Hydes
