Dear Parents and Carers

Online Safety Parent Session

We have booked online safety experts John Woodley and John Staines (The ‘Two John’s) to work with our school community on Online Safety. In an ever changing online world it is crucial that children, parents and school staff know the current dangers and how to stay safe online. On Wednesday 1st May the two John’s will be working with children, leading a staff meeting and also a parents information session.

Parents Session: Wednesday 1st May 7.00 – 9.00 p.m.

You may have attended a session last year – please come again as the apps, games and dangers change and evolve. This is appropriate for any parent at the school. A recent testimonial on their website says:

I've seen John present this several times and I'm amazed how fast things change. You need to see this every six months to stand a chance of keeping up. The facts, stats, anecdotes, quotes, videos and walk-throughs are expertly presented. The things you thought you knew are probably 100% polar opposite to reality. Be prepared for a difficult listen backed by hard evidence - usually from 1,000s of kids from local schools during the previous week! If you don't think it applies to you or you think you already have this kind of thing covered - think again and book up for their next session.

The event is free, but please book a place through our online booking system, that is used for Termly Learning Conferences and Performances. The online booking system will open on Tuesday 2nd April at 7.00 p.m. and we would ask that you book as soon as possible as places are limited. The booking system will close on Sunday 28th April at 7.00 p.m.

Yours sincerely

Miss Hawkes
Head of School
