At the end of this school year you will receive your child’s KS2 National Curriculum assessment results

Your child will have two sets of results.

1. Your child’s Teacher Assessment levels are made during normal classroom work. Teachers use their planning and records and their knowledge of your child to help decide an outcome for your child. This will show the outcome which best fits your child's achievements in English, mathematics and science. The results for Teacher Assessment will be based on all the work your child has done since entering school.

Possible outcomes for Reading, Maths and Science are either
- Not working at the expected standard
- Working at the expected standard

Possible outcomes for Writing are
- Working towards the expected standard
- Working at the expected standard
- Working at greater depth within the expected standard

Children who are not yet working towards the expected standard may be assessed as ‘Growing development of the expected standard’, ‘Early development of the expected standard’, ‘Foundations for the expected standard’, ‘Below the standard of the pre-key stage but above P8’ or ‘P scales’.

2. Your child's end of Key Stage 2 national test results. The test results will be based only on those aspects of learning which have been included in this year's tests (taken in May) and will be reported as a 'scaled score' for Reading, EGPS (English Grammar, Punctuation and Spelling) and Maths.

Both sets of results give information about how your child is performing against a national standard, but in different circumstances.

Your child's written report will give you much more information about his or her achievements, progress and individual needs.
